

The satellite radio industry is no different than satellite t.v. They should have the same rights, as should I, the consumer. I live in a mountainous area. I get only ONE radio station, KUZZ 550 AM. I rely on satellite tv and satellite radio to get programming!

I have a right to receive these services. I CANNOT receive local channels where I live! This is a vital necessity for myself and my family. I need the weather channels and other programming.

I respectfully request that the FCC reject NAB's petition 04-160.

Sincerely,

Leann M. Kenley
